

REMARKS

Applicants respectfully request the Examiner to reconsider the merits of the objections and rejections in view of the foregoing amendment and the following remarks.

Upon entry of the foregoing amendment, claims 287, 290-296, and 299-303 are pending in the application.

Claims 288, 289, 297 and 298 are cancelled.

Applicants respectfully request entry of the above amendment and submit that the above amendment does not constitute new matter.

Claim Rejections under 35 USC §102

Claims 287, 291, 294, 296, 298, 299 and 302 stand rejected under 35 U.S.C. 102(b) as being anticipated by Mauclair et al. (US 5,268,371). The Examiner states the following:

Mauclair et al. discloses non-metallic porphyrin comprising a reactive group directly or indirectly attached to any one of the four non-pyrrole positions. (Col. 3).

Col. 12 example 5 shows a reactive group attached to the non-metallic porphyrin through a linker.

Col. 9 lines 28-34 shows that a target can be attached. Said target can be selected from antibodies. Col. 8 lines 64-68 shows that antigens can also be used.

Claims 289, 290, 292, 293, 295, 300, 301, 303 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Applicants believe that the amendments made to the claims address the Examiner's anticipation rejections, and now place the claims in condition for allowance. At the Examiner's suggestion, the claims have been rewritten in independent form including all of the limitations of the base claim and any intervening claims. Also, antibodies and antigens have been deleted from the pertinent claims.

SUMMARY

Applicants have amended the claims to address the aforementioned anticipation rejection. Therefore, the claims are in proper condition for further examination. In view of the foregoing remarks, Applicants respectfully request reconsideration and withdrawal of the rejections of record and further examination of the amended claims. These claim amendments have not resulted in the addition of new matter. Early and favorable action is respectfully requested.

The following rejections and/or objections are either newly applied or reiterated. They constitute the complete set presently being applied to the instant application.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 287,291, 294, 296, 298, 299 and 302 are rejected under 35 U.S.C. 102(b) as being anticipated by Mauclair et al. (US 5,268,371).

Mauclair et al. discloses non-metallic porphyrin comprising a reactive group directly or indirectly attached to any one of the four non-pyrrole positions. (Col. 3).

Col. 12 example 5 shows a reactive group attached to the non-metallic porphyrin through a linker.

independent form including all of the limitations of the base claim and any intervening claims.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for response to this final action is set to expire THREE MONTHS from the date of this action. In the event a first response is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action.
